What do the risk levels mean?	
Low	A minor injury/minor health effect may occur. Monitoring is required to ensure suitable and sufficient control measures are maintained.

Learning General Visit

Risk Assessment – September 2023 onwards

Medium	A significant injury may occur however the injured person would make a full recovery. Any health effects would be temporary. The effectiveness of control measures must be considered and implemented.
High	A fatality, serious injury or a permanent health condition where a full recovery is not expected may occur. Work should be halted and access restricted until control measures have been implemented.
 For further information and guidance on risk levels, please see the Risk Assessment Policy
